

EBB User Group Meeting

October 23, 2008

Objective of Group

- Provide a forum for users to:
 - Exchange ideas and network with other EBB Users;
 - Learn about software updates and enhancements; and
 - Have a dialogue about the evolution of the EBB through sharing experiences and suggestions.

Objective of meeting

- Preview EBB Users Group site
- Review the last year's accomplishments
- Demonstrate new nomination functionality
- Discuss status of remaining requests
- Interactive exchange of ideas and suggestions.

Accomplishments 10/07-10/08

- Externally apparent:
 - Login availability directly from CGT Home page
 - Automated “Reset Password”
 - Additional reporting
 - Invoice details download
 - Maximization Analysis report added (TA110)
 - FERC Order 712 Required Updates to Capacity Release screens
 - AMA
 - Capacity Release Cap Removal
- Behind the scenes items that add to a positive customer experience:
 - Streamlining to improve system performance
 - Added ability to open or close cycles early when scheduling processes are complete
 - Business Recovery System exercise successfully completed May, 2008
 - Tested complete recovery of EBB after a catastrophic failure
 - Force Balancing
 - Automates most of the pipeline balancing tasks
 - Frees schedulers time to review the more complex items
 - Measurement
 - Interface improvements (file watchers, email notifications, efficient processing)

New Nomination Functionality

- Multi-line nomination entry
 - Single-line update not needed
 - Receipt and Delivery tab toggling
 - Down tabbing for efficient updates
- Nomination Upload/Download
 - Download from Nomination Create screen
 - Create EXCEL template for future uploads
 - Upload data validation
- Enhanced Nomination Summary
 - Drill-down capability (“+”)
 - Available from conversion date forward
- Other
 - Peak Data reporting (FG073) – monthly averages, min and max daily deliveries
 - ID2+ nomination entry available through Nom Create screen
 - Upstream Contract Identifier is a required field
 - ID1 and ID2 nomination entry time restrictions
 - Improved error messaging in Nominations and Confirmations

Outstanding Requests

- Capacity Release
 - Streamlined data entry
 - Improved reporting, esp. summary
- E-Tariff Implementation (FERC)
- Reporting
- User preferences
 - Invoicing package
 - Automated emails based on your selections
- Internet Explorer 8.0 (Beta)
- Online customer interactive services (ex: EBB access)

Capacity Release

- Next Major Planned Release
- Logical navigation and reporting
- Marketplace Summary
 - Will include ability to navigate to other capacity release screens or to perform searches
- Offer and Bid Create concept
 - General Header
